

Future Classic.

"It's the synth of the year, no question."
—Dr. Walker

EQ

"This is nothing less than a future classic and a major event in synth design."
—Steve Fortner

keyboard

"This thing reminds me why soft synths still suck and analog still rules the world." —BT

The Poly Evolver Keyboard is the real thing in a virtual world—real analog electronics combined with advanced digital processing.

You'll remember how much fun it is to play a real instrument.
